

Experiment - 2

Attendance Marking System Using Zoho One (SaaS)

Aim

To develop an Attendance Marking System using Zoho One as a cloud-based Software as a Service (SaaS) application.

Procedure

1. Sign in to the Zoho One cloud platform with the required account.
2. Open Zoho Creator from the applications available in Zoho One.
3. Create a new application for managing attendance records.
4. Create a new form and name it Attendance Marking.
5. Add the required fields such as Student Name, Register Number, Date, and Attendance Status.
6. Select suitable field types for each attendance-related detail.
7. Arrange the fields properly to make attendance entry simple and convenient.
8. Save the form and publish the application.
9. Enter sample student attendance details into the form.
10. Submit the attendance information and verify that it is stored in the cloud.
11. Test the system with different students and attendance statuses.
12. Confirm that the Attendance Marking System operates successfully as a SaaS application.
