

Experiment - 3

Sports Ground Booking System Using Zoho One (SaaS)

Aim

To create a Sports Ground Booking System using Zoho One and demonstrate its use as a cloud-based Software as a Service (SaaS) application.

Procedure

1. Log in to the Zoho One cloud platform using the required account.
2. Launch Zoho Creator from the Zoho One application list.
3. Create a new application for managing sports ground reservations.
4. Create a new form named Sports Ground Booking.
5. Add the required fields such as Ground Name, Sport Type, Booking Date, Time Slot, and User Name.
6. Configure appropriate field types according to the booking information.
7. Design the form layout so that users can enter reservation details easily.
8. Save and publish the completed form.
9. Enter sample sports ground booking information into the form.
10. Submit the details and check that the booking data is saved in the cloud.
11. Test the system by entering different grounds, dates, and time slots.
12. Verify that the Sports Ground Booking System functions successfully as a SaaS application.
